

## Edward Jones Advisory Solutions®

### Unified Managed Account (“UMA”) Models Schedule of Fees

The Advisory Solutions UMA Models Fee is comprised of the Program Fee, the Portfolio Strategy Fee and the SMA Manager Fee(s), net of any applicable fee reduction or fee offset (which is described in the Edward Jones Advisory Solutions® UMA Models Brochure (“Brochure”). The UMA Models Fee is calculated by multiplying the applicable fee rate (which includes the Program Fee, the Portfolio Strategy Fee and SMA Manager Fee(s)) by the market value of all assets held in my Account (using the previous month’s average daily balance). Edward Jones Reserve Line of Credit advances, if any, do not reduce the market value of my Account for the purposes of calculating the UMA Models Fee. The initial UMA Models Fee will be charged to my Account in the month following the date my Account was eligible for Advisory Solutions based upon the number of days my Account was open during the month and based upon the average daily market value from the date my Account was accepted by Edward Jones through month end.

If the Services Agreement is terminated, the final UMA Models Fee will be assessed based upon the number of days my Account was open during the month and based upon the average daily market value using the prior day’s price to determine a market value on the final day in order to calculate the closeout fee.

#### Program Fee Schedule

Edward Jones may combine certain advisory program accounts of the same client and/or related clients for the Program Fee and Portfolio Strategy Fee calculation, as further described in the Brochure.

#### SMA Manager Fee

The SMA Manager Fees are based on the market value of the assets held in my Account and managed by the SMA Manager(s), which are assessed at an annual fee rate that generally ranges from 0.20% to 0.40% (20 to 40 basis points). The exact SMA Manager’s Fee is dependent on the investment strategy of the SMA Manager(s) in my Account and does not apply to mutual funds and ETFs held outside an SMA.

In addition to the above fees, clients will bear the cost of commissions or transaction charges for securities trades directed by the Overlay Manager and/or Executing SMA Managers for execution by broker-dealers other than Edward Jones.

**Accounts are subject to a minimum Advisory Solutions UMA Models Fee of \$10 per month.** Edward Jones’ billing cycle is subject to change without notice.

More information about the UMA Models Fee, including any applicable fee reduction or fee offset, can be found in the Brochure, located at [www.edwardjones.com/disclosures](http://www.edwardjones.com/disclosures).
